Dear Dr. Henney:

I think it's time for the F.D.A. to allow the companies to express on their labels what the product will do. In my case saw palmetto reduced an enlarged prostate in a short time and no side effects.

Nutritional supplements have certainly made our lives better.

It would be a great help to everyone if more information was available on each product. Hope you will lend your support to this effort.

Sincerely yours,

Elmer W. Wood
